Welcome Back Leah...

On Wednesday, we welcomed back Leah and wished her Mazel Tov on her new baby boy! We embraced her with many hugs and greetings for her exciting return. Leah was equally happy to see us after a long break. She was surprised to see a beautiful welcome back sign hanging above her desk. We wish Leah and her family lots of joy and happiness!

Sun Prints..

Though the weather is cooling down, the smiles at Otsar are keeping us feeling snug. This week in our arts n' crafts activity, the participants created magnificent sun prints. Each participant received a cloth fabric along with their choice of

leaves. We dipped the fabric into water. We then placed leaves on the fabric and painted the surrounding area using yellow, green and purple paint. **Yanky** impressed us with his artistic talents. The participants put out the fabrics in the sun to dry and out came a dazzling picture. The paint colors evaporated forming streaks around the leaves. **Peryl** oohed and aahed, admiring her sun print. Here at Day Hab, the participants are “basking in the sunlight” of our warmth!

Trip to Dollar Tree..

The participants cheered when they heard we would be going to Dollar Tree. There are so many marvelous things to buy and the prices are super low. On Wednesday, we loaded the buses in no time and were on our way. **Francine** bought a DIY craft kit. **Danny** purchased a coloring book with crayons. **Maria** bought a beauty set. We walked around the exciting store, eyeing the vast display of colorful items. The participants came back with a bounce

in their step. We are looking forward to put these items to good use at home!

Kitchen Scoop..

Join me as we take a peek inside our kitchen group. Our seasoned chefs

have mastered many culinary skills and handle these tasks in stride. On

Monday, we had rice, nutritious fish and vegetable salad. Our stomachs

grumbled in anticipation as we prepared the food. Wednesday

brought along a classic; cheese sandwiches. We topped it off on

Thursday with cottage cheese noodle kugel, arguably the most

popular lunch served at Otsar. The lucky group of participants

hammered away but their efforts surely paid off. We were all

impressed with how flavorsome the food tasted. Hats off to our

wonderful chefs!!
